Twinkle Twinkle, Little Star

*Traditional*

\(\text{G} \quad \text{C} \quad \text{G} \quad \text{C} \quad \text{G} \)

Twinkle, twinkle, little star; how I wonder,

\(\text{D}^7 \quad \text{G} \quad \text{C} \quad \text{G} \quad \text{D} \)

what you are, up above the world so high,

\(\text{G} \quad \text{C} \quad \text{G} \quad \text{D}^7 \quad \text{G} \)

like a diamond in the sky! Twinkle, twinkle

\(\text{C} \quad \text{G} \quad \text{C} \quad \text{G} \quad \text{D}^7 \quad \text{G} \)

little star, how I wonder what you are.
